RUMANIA JOINS FORCES OF ALLIES

DECLARES WAR ON AUSTRIA AFTER CONFERRING WITH KING.

GERMANY RETALIATES; COUNTER DECLARATION

Eastern States' Minister Handed Passports—Will Strip Teutonic Forces of Balkans.

Special to The Democrat-Forum.

Paris, Aug. 28.—It was officially announced today from Bucharest that Rumania had declared war on Austria-Hungary. The decision to enter the war on the side of the allies was reached after the conference held with the king Sunday. It is estimated that Rumania will be able to put half a million soldiers in the field, and a way will be opened for the Russians to strip the Teutonic allies in the Balkans. Russia has massed an enormous army on the Rumanian frontier and has been waiting for Rumania's declaration. These troops can now drive into Servia by the way of Rumania, thus cutting off the communication of Germany with Turkey.

Germany Declares War on Rumania.

The Hague, Aug. 28.—Berlin dispatch says Rumanian minister to Germany has been handed passports. This indicates that Germany will declare war on Rumania in retaliation for Rumania's declaration against Austria.

Other Ministers Leave.

Rome, Aug. 28.—A Bucharest dispatch says the German, Turkish and Bulgarian ministers left with the Austrian minister.

Hostilities Begun by Rumania.

Berlin, Aug. 28.—Officially announced the Rumanians have invaded Transylvania, Hungary, and that the hostilities have begun.

Italy Declares War on Germany.

Rome, Aug. 28.—Italy yesterday declared war on Germany.

Paris, Aug. 28.—A Havas dispatch from Rome gives a communication published by the Stefani agency and addressed by the Italian government to the Swiss government. It requests the Swiss government to inform the German government that Italy considers herself at war with Germany from and after today.

Berlin, Aug. 28 (by wireless to Saybille).—The following official announcement was made here yesterday:

"The Italian government has declared through the Swiss government that it considers itself from August 28 at war with Germany."

London, Aug. 28.—The Bulgarian guns on the Dorian front in Greek Macedonia have been silenced by the British, according to the war office. There is continued activity on the Struma river front. Saloniki reports that the Bulgarian troops are occupying the Aegean port, Kavala, and seized great stores of war supplies. Complete details of the avala fighting have not been received, but serious damage was done the Kavala forces by British warships, according to report.

Little activity was reported on the western and eastern fronts.

G.A.R. ENCAMPMENT

MANY VISITORS IN KANSAS CITY FOR CELEBRATION.

5,000 VETERANS THERE

Meetings Planned for Every Day This Week—Old Soldiers Parade—Big Feature.

Special to The Democrat-Forum.

Kansas City, Mo., Aug. 28.—A city of red, white and blue greeted the opening of the golden jubilee encampment of the Grand Army of the Republic here today. All of the buildings in the downtown district, as well as many houses in the residential district section, are draped from top to bottom with bunting and flags.

Fully 10,000 visitors are in town. Nearly 5,000 of this number are federal veterans of the civil war. The rest are delegates to the conventions of the auxiliaries of the G. A. R.

The hotel lobbies are filled with old "vets" who are gathered in groups, discussing experiences of the war. Up and down the streets they are parading in their frazzled old blue uniforms.

At Convention hall tonight the general committee which has made all the arrangements for the encampment will turn over its work to Elias R. Monford of Cincinnati, O., commander-in-chief of the G. A. R.

Meetings are planned for every day and night this week.

Two great campfires will be held at Convention hall during the encampment.

The big feature of the encampment will come Wednesday morning, when the old veterans will parade through the streets of the city with all the pomp and dignity of a marching army.

Fife and drum corps from all over the country will play the martial airs to which the old soldiers will march.

Another feature of the gathering is the elaborate reunion system evolved by the committee. All of the old veterans are registered in card filing indexes according to regimental order. Each regiment has a headquarters. This is to enable the old soldiers to meet old acquaintances of the war days.

Due to this system several old veterans, who have not met since the civil war, were brought together.

And a Centennial Celebration Will Be Observed—Many Nodaway County Divines Will Attend.

The Rev. Robert C. Holliday, pastor of the Buchanan Street Methodist church, left last evening for Fayette, Mo., where he will attend the centennial session of the Missouri conference of the M. E. Church South, which will be an epoch in Methodism in Missouri.

The Rev. O. E. Lockhart of Guilford and Bethel, the Rev. Smallwood of Ravenwood and Monroe Chapel, the Rev. G. T. Rolston of Barnard and Wilcox, the Rev. M. C. DeWitt of Skidmore, New Hope and Centenary, and the Rev. A. C. Snowden of Elmo and North Grove, will attend and a number of them left yesterday.

The business of the conference opens Wednesday morning. Three bishops will be present, Bishop E. R. Hendrix, Bishop W. A. Quayle and Bishop W. F. McDowell of the Methodist Episcopal church. A bronze memorial tablet containing on appropriate historical inscription of Bishop McKendrell, first presiding elder and bishop to visit Missouri, and probably the first Methodist preacher to hold a meeting in the territory, and Bishops Marvin and Hendrix, the two Missouri bishops, will be placed in Centenary Chapel, the conference church, on September 3-4.

The appointments will be made next Monday. As the Rev. Holliday has only been here one year and his work has been very good, the church showing a good progress, an effort will be made to get him back.

KILTIES ARE COMING

FAMOUS SCOTTISH BAND WILL APPEAR AT EMPIRE SOON.

Ab Robertson, Former Maryville Man, Now Bass Soloist With Group—Reputation is World-Wide.

Hoot mon! the Kilties are coming This famous Scottish band, one of the most novel and interesting features of public entertainment, is coming to Maryville. These forty bandsmen in their kilts, plaids and tartans produce a distinct novelty in appearance as well as giving concerts that have been enthusiastically received in all parts of this country.

Besides the wonderful band, they also have many special features. Mr. Will F. Newlon, saxaphone soloist, Mr J. Coates Lockhart, tenor soloist, Piper Major Smart in the Scottish dances and bagpipes, all appearing in full kilted regimentals, with a complete change of program for each performance.

This is the same band which last year played both of the now famous California expositions and also played a return engagement at the San Diego exposition.

The reputation of the Kilties is world-wide, the band having toured the world, traveling over 90,000 miles and visiting in twenty different countries. It has the unique honor of having been twice commanded to appear before his majesty, King Edward VII of England.

An interesting feature in connection with the band is that a former Maryville man is with the company. Ab Robertson, a former member of the Maryville band, is now a bass soloist with the Kilties. Mr. Newlon is also well known here.

The Kilties band will play two concerts at the Empire theater next Friday afternoon and evening.

GIVES LAST SERMON

THE REV. MR. CASE SPEAKS ON "FIGHTERS FOR THE FAITH."

URGES "SAVING FAITH"

Asks Members to Be Good Soldiers of Jesus Christ, to Contend Aggressively, But With Love.

The Rev. Moll Case, pastor of the Presbyterian church of Maryville, who leaves tonight for Caldwell, Idaho, gave his last sermon in Maryville yesterday morning at the regular service. Mr. Case took as his subject "Fighters for the Faith," and for his text a selection from the general epistle of Jude, "Contend earnestly for the faith which was once for all delivered unto the saints." He said in part:

"We are confronted today in the intellectual, moral and spiritual world with many insidious forces which under the plausible banner of "tolerance" have lulled to sleep the real Christian forces of many a community.

"In this easy going and tolerant age there are all too many who have rendered themselves immune to the true faith by an easy jostling of the institution by which the true faith has been propagated. That you have a real part in dispelling this "twilight of the gods' atmosphere" and heralding the dawn of the true "Son of Righteousness," I bespeak your careful attention.

"Will you notice that you are called on to contend for a faith once for all delivered? By that I understand that you are not called to contend for a creed as such. Not that I do not believe in creeds. I hope you have one, in short, I believe it is a splendid thing to take a few hours off and write down the things that you verily do believe.

"Nor on the other hand are you to contend for a church, not even for the church of all true believers," the Holy Catholic Church." I mean you are not called on to contend for a result but for a cause. The shame of Christendom today is the way in which the ecclesiast has laid his cold hand on the kingdom and contended for our denomination, "my church." Much less are you asked to contend for a rite within the church.

"No, you are called to contend for an experience of saving faith. You are called to witness to a great redemption, and experience of salvation free from sin, and unto life that is life indeed. The early apostles preached Christ as the Lord because he had risen, and a Savior because he had brought to them assurance of their own redemption and release.

Therefore, while I can give little advice, I can point you to the site of "A Faith Beleaguered" and call on you as "good soldiers of Jesus Christ" to come to its rescue—bring it away from a defensive campaign and lead it out in the open to contend aggressively and offensively. For it is a faith which bears the promise that it is the one

NO WORD FROM SCOVILLE

Failure of Evangelist to Reply Causes Authorities to Declare Meetings Off—Too Late to Prepare.

Since no word has been received from Charles Reign Scoville, evangelist, who had been invited to hold meetings in Maryville from September 13 to October 9, the Ministerial Alliance has decided to call the meetings off. A night message was sent to Mr. Scoville a week ago, and this was followed with a letter. No reply has been received from either one.

Even if Mr. Scoville should accept now, the ministers of the Protestant churches will not accept, as it will give too short a time to arrange for the meetings and to build a tabernacle. So Maryville will miss the opportunity of having the union meetings.

THE FEDS WIN GAME

DEFEATED ALBANY BRONCHOS YESTERDAY TO THE TUNE OF 5-0

NO HIT GAME FOR ALBANY

Fastest Ball Game Played Here This Season, Taking One Hour and Twenty Minutes.

Revenge tastes good. And the Feds got all of it they could eat yesterday when they drubbed the Albany Bronchos to the tune of 5-0. It was the fastest game played here this season in the opinion of most of the fans. It makes up for the 9-7 and 4-2 defeats the Feds received at the hands of the Albany boys a few weeks ago.

And the best thing about it is that the visitors went hitless for the first time in many months. Grant, the regular pitcher for Corning, Ia., who won the tournament for that team at Clarinda last week, was the boy who made the Bronchos eat from his hand. He had a good hop on the ball and a quick breaking curve which they could not hit. Only two balls were hit to the outfield by Albany, and they were both putouts. Besides having all this stuff he is a good hitter.

The game yesterday was featured by fast fielding on the part of both teams The honors for Albany go to Gill, playing short. For the Feds, Scott, at short, and V. Walker, at second, pulled down the fielding honors.

The Feds grabbed a score in the first inning. Cowell hit the second ball pitched to left for a triple. Stewart attempted to squeeze him in but failed, going out Vance to Craven. V. Walker, the old dependable, scored Cowell with a double to right center. The score remained 1-0 until the seventh, when L. Walker, Walker's younger brother lined one to deep right center for the circuit. The Feds added three more in the eighth. Bluell singled. Tilson reached second on an overthrow, Bluell going to third. Grant struck out. Both runners scored when Cowell's grounder went through Ross. Cowell was called out for cutting first. Stewart reached second when Goodman dropped his fly to right, and scored on V. Walker's single.

Grant pulled himself out of a bad hole in the fourth. Gill took first on an error by Stewart and reached third when Stephens threw to center in an attempt to catch him stealing. H Summa was out, Grant to Tilson. E. Summa walked. Garvin and Craven struck out. Not an Albany batter reached first after the fourth inning.

Ed Keck was back at the umpiring job again and kept the game moving. The game was played in an hour and twenty minutes. Keck will umpire the rest of the games this season with the exception of the tournament.

Next Sunday the Feds will play

WILSON WISHES DISPUTED POINTS PUT BEFORE NEWLANDS.

MUST FIRST ACCEPT 8-HOUR DAY PRINCIPLE

President Has Prepared in Case of Necessity an Appeal to Congress and to the Country.

Special to The Democrat-Forum.

Washington, Aug. 28.—It is learned officially that the president now wants both sides to agree to submit all questions of dispute to the Newlands commission, first they accepting the principle of the 8-hour day. Then the president intends to ask congress to ratify the Newlands commissions acts. The plan will be submitted to the railroad chiefs, then the president will confer with the brotherhoods.

After a conference with the president, Senator Kern announced a meeting of the steering committee for 4 oclock to consider the legislative program, which it is understood the president and advisors have agreed on, and which will prevent the strike if it is necessary to enact it.

Wshington, Aug. 28.—Confronted with apparent failure in his efforts to settle the railroad strike, the President has prepared, in case of necessity, an appeal to Congress and the country.

The strike situation is more menacing than any time since the trouble started. The final conference today between President Wilson and the railroad presidents appears to be the last step in direct negotiations. This conference was originally set for 10 o'clock this morning, but was postponed until 2:30 o'clock this afternoon at the request of the president, who further examined the situation.

In the meantime the committee of twenty-four, deputized by the brotherhood to handle future negotiations, are waiting and will flatly refuse the railroad demands. Six hundred district delegates left yesterday carrying strike orders. The committee of twenty-four are instructed under no circumstances to agree to arbitration of the demand for an 8-hour day at the present rate of pay for ten hours.

To Strike Within Ten Days.

Unless the railroad heads recede from their demand for arbitration of the 8-hour day proposal, one brotherhood head said today, a strike affecting about four hundred thousand men will be called within the next ten days.

MEMORIAL COINS ARE READY

$100,000 in Gold Dollars Coined as McKinley Memorial—Proceeds to Build Mausoleum.

The McKinley Memorial association of Ohio asked congress to authorize the coining of $100,000 in gold dollars as a memorial to President McKinley. These coins are to be sold at $3 each, and the proceeds will go toward the building of a mausoleum at the birthplace of President McKinley.

The coins are attractive, being about the size of a $2.50 gold piece. On one side there is a representation of McKinley in profile, with the words "McKinley Dollar, United States of America." On the other side is a representation of the Mausoleum with the inscription "McKinley's Birthplace, Niles, O., 1916, Memorial."

The Farmers Trust company has received a number of these coins and will place them on sale for the benefit of those who wish to possess a memorial coin, and at the same time help toward the building of the mausoleum. Although a single coin is $3, if ten or more are bought, the coins will be sold for $2.50 each.

OUR BAND IN MOVIES

Pictures of Fourth Regiment Band, in Camp at Nevada, Mo., at the Fern Tonight.

This picture shows all of the Fourth Regiment boys in camp at Nevada, Mo. Making ready to move to the Mexican border, it shows two close up views of the Fourth Regiment band, and no doubt Maryville mothers, wives, friends and sweethearts will see their dear ones in this picture.

This wonderful picture shows how your dear ones live while they are out serving God and their country. It shows actual drilling, how the boys have to drill for three hours every day. And it shows the sham battles also, how the boys eat. It shows the mess tent with the boys getting the meal ready, and then the bugle call and the boys coming to their meals and how they eat.

Maybe you don't know it, but the boys are initiated. It shows them getting initiated, and then the manner in which they take recreation. Boxing playing craps and other forms. No one can make a mistake by seeing this authentic moving picture.

This picture positively will not be shown again in this city. No advance in price.

But may your contention be in love? "Speaking the truth in love" is the apostolic injunction. Therefore, contend with cheers—smite with a smile and harrass with hallelujahs.

Bring to it not the sober compulsion of a "religious duty" but the high challenge of a great game, of something worth fighting for, and, if need be, dying for. Bring that spirit which caused the aged Duff back from India to his general assembly in Scotland to ask for a renewal of his appointment there. His brethren replied, "Man, if we do you will die." Swift flashed the veteran's answer, "If I do not, I will die."

And in particular do I want to lay this cause on the hearts of Kappa Sigma Pi, my joy and my crown in my ministry here.

To you in this age which will break up after the war in another release of freedom such as came after the French Revolution will come a mighty opportunity. Another Wordsworth will sing of it as he did then,

But to be young is very heaven"

May you bring then to this faith the contention that has proved your prowess on many an athletic field and may you find a response in your own hearts.

Reconstruction, of course! When the great war is over, shattered Europe must be rebuilt. Mediaeval architecture, crumbled by cannon, will be replaced by well-lighted, well-ventilated, convenient and sanitary buildings of the present day. In this tremendous rebuilding,

Certain-teed
Roofing

will play a leading role; for CERTAIN-TEED is the twentieth century answer to the demand for roofing that is economical to buy, easy to lay and inexpensive to maintain.

CERTAIN-TEED Roofing is made in rolls; also in slate-surfaced shingles. There is a type of CERTAIN-TEED for every kind of building, with flat or pitched roof, from the largest sky-scraper down to the smallest residence or out-building.

It makes a clean, sanitary, attractive roof, with a very low cost per year of life. It is guaranteed for 5, 10 or 15 years, according to ply (1, 2 or 3). Experience proves that it outlasts the period of guarantee.

If you are interested in roofs, investigate CERTAIN-TEED before you decide upon the type to buy. You will find CERTAIN-TEED for sale by responsible dealers all over the world.

The long life of CERTAIN-TEED is due to the quality of the roofing felt and the character of the asphalt saturation. This is a blend of soft asphalts prepared by the General's board of expert chemists. The highest quality roofing felt is thoroughly saturated with this soft blend, and is then coated with a blend of harder asphalts, which prevents the drying-out process so destructive to ordinary roofing.

Fall and Winter Styles

We are now showing a very attractive assortment of the new Fall and Winter Suits and Coats. The woman with discriminating taste will find a Suit or Coat which means the smartest and most charming expression of HER personality.

The new suits show a most pleasing flare from the waistline down. This is true in all three variations of suits now being shown —the simple tailored model, which has so much to recommend to the business woman, professional women and women or refined taste in general; the Norfolk model which comes this season in many original varitions, and which with its plaits and pockets and belts always gives a youthful appearance; and the dressy models which are distinguished by attractive pockets, shirrings at the waist and many other touches of interest.

Large collars that may be worn showing wide revers orclosely buttoned to give the double breasted effect are much in evidence.

The leading materials are Gabardines, Poplins, Whipcords, Serges, Wool Velours, Velvets and Broadcloths. The colors most favored are navy blue, brown, taupe, burgandy, green and black.

The prices of the assortment we are now showing range from $22.50 to $60.00.

See the assortment of the new Irish Tweed Coats for fall. They come in three main styles—the belted effect; the type that hangs square and straight from the shoulders: and the loose flowing effect with long flaring lines. They have the large collars and cuffs. Suitable for Fall and Winter wear or for motoring. Prices $13.75 to $22.50.

The Sport Coat that promises to be a leader is made from the celebrated hand woven "Donegal Rugs" a fabric of superior merit which can be washed with pure soap and water without impairing either cloth or appearance. They are in belted and loose flaring effects, fringed at pockets and at the bottom. We are showing them in various colored plaids, at each $25.00.

NORTHERN LIGHTS ON A SPREE.

The Aurora Borealis Had Depressing Effect on the Wire Service—Was Observed Here.

Many people here observed the meteoric displays running sometimes from the zenith to the horizon, Saturday night. According to reports to the telegraph companies the paths of light across the sky were observable for four or five hours during the early part of that night.

Telephone and telegraph service, according to a dispatch from New York, were seriously crippled by the aurora borealis, described by officials of companies in that city as perhaps the most depressing on wire circuits in many years. Wire chiefs of each telegraph company said that in many instances they were forced to abandon altogether their quadruple and duplex wires.

Maximum Temperature Was 75.

The maximum temperature in Maryville yesterday was 75 and the minimum last night was 47. The radical change in the temperature called for a shift of wearing apparel, and the light wraps afforded comfort. It is ideal weather and the indications are that this week will be pleasant, free from storms, and of normal temperature.

A NEW BUTTERMILK

PRODUCT CLEANER WITH BETTER TASTE THAN OLD KIND.

USE CULTURE STARTER

A Known Germ is Added to Skimmed Milk and the Result is an Artificial Drink.

The term buttermilk has for many years been applied to the product left after churning milk or cream and abstracting the butter. In the last few years a new kind of buttermilk has been placed on the market which is rapidly displacing the old-fashioned, home-churned product. Some prejudice exists against this manufactured buttermilk but, according to Dr. M. P. Ravenal of the preventive medicine department of the University of Missouri, it is really cleaner, has a better taste and is more suitable for food purposes than the old product.

Butter manufacturers do not depend on the actual souring of milk as much as formerly, says Dr. Ravenal, but are using "pure culture starters," as they are called. So in manufacturing buttermilk a known germ is added to skimmed milk and an artificial buttermilk is produced.

Slightly different methods exist, but this receipt represents the newer product and will show people what they are drinking when they take the manufactured buttermilk One gallon of whole milk is added to twenty gallons of skimmed milk as soon as it has been separated. This is not necessary, but is done because most people like to see some signs of butter fat in buttermilk. "Starter" is added, and the whole quantity of milk is kept at 70 degrees Fahrenheit for six or seven hours, when it will be found to have curdled. It is then churned for one-half hour, and should be bottled at once and cooled to 50 degrees or below to prevent the further development of acid and separation of whey. It is finally strained through cheesecloth to remove any coarse lumps. It is a refreshing and tasteful drink with high food value, and as a summer drink is especially good for both children and adults.
